

Soil Science Society

OF NORTH CAROLINA

TO: Members of the Soil Science Society of North Carolina

FROM: G. Christopher Murray, President-Elect
Soil Science Society of North Carolina

SUBJECT: Call for Papers & Posters for the 2019 Annual Meeting

DATE: September 25th, 2018

Please mark your calendar to attend the 62nd Annual Meeting of the Soil Science Society of North Carolina on **January 22nd and 23rd, 2019** at the McKimmon Center on the campus of North Carolina State University in Raleigh.

I encourage you to volunteer an oral presentation or poster paper to share with the Society members at the upcoming meeting. The theme of the 2019 meeting will be “Soil Science – The Future of Our Profession” and presentations related to that topic will be particularly welcome. The keynote address will be presented by Dr. David Hoover, Director of the USDA-NRCS National Soil Survey Center located in Lincoln, NE.

Presentations related to other soil science topics, including the subject areas listed below, are also encouraged.

- Soil Chemistry, Contamination, Remediation, Groundwater Quality
- Soil Fertility, Soil Microbiology, Organic farming, Composting
- Soil Genesis and Classification, Geomorphology
- Onsite Wastewater, Rules, Regulations
- Wetlands and Streams, Storm water, Sediment Erosion Control
- Soil Education, Outreach, Environmental Technology

The official CALL FOR PAPERS and POSTERS form is attached. If you are interested in presenting an oral or poster paper, please return the completed form with a copy of your abstract to Chris Murray by email at President-Elect@ssnc.org **by October 31, 2018.** You may also send your information and the abstract by mail to the address at the bottom of the form. You will be notified by a reply email regarding the receipt of the abstract and acceptance as either an oral or poster presentation; instructions for presenting oral and poster papers will follow. For oral papers, the Soil Science Society of NC would like your permission to display the presentation as a pdf on our website. We no longer require papers but if you want to provide one you may. **Remember:** North Carolina Licensed Soil Scientist and Professional Geologist continuing educational credit hours are available for those who present papers.

Please share this information with your colleagues and co-workers who may be interested in becoming a member of the Soil Science Society of NC and/or attending the annual meeting to learn about important topics related to soil science. The pre-registration materials will be sent to you in early November. Information about the upcoming meeting and the Society can be found at our Web site, <http://ssnc.org/>
